### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-8 rejected under 35 U.S.C. 103(a) as being unpatentable over Burroughs (5071134).

Claim 1,2,4,5,6,7,8: Burroughs teaches a game board (12) having a path with portions/spaces with indicia to match indicia with cards (abstract), start space (38), playing pieces (64), cards with multiple choices (48), printed instructions (2:60-63), situation cards (50) and various situations (6:5-40), answer guides (2:1-4), random device (28). Burroughs also teaches rolling , moving, drawing cards, answering questions and winning (3:18-4:31).

Burroughs teaches all limitations except that it does not teach a game container.

Packing game pieces and articles in boxes and containers is widely used practice to make sure that items are not misplaced. In order to properly secure playing pieces, it would have been obvious to use a container. One of ordinary skill in art would have provided a container to store all items to play a game.

Claim 3: Burroughs indicates at completing a game action within a stipulated amount of time (2:15-18), clearly indicating at use of a timing device. It is also a common practice in the art area of board games to restrict completing game actions in

predetermined amount of time to make the game interesting and competitive. One of ordinary skill in art at the time the invention was made would have suggested providing a timing device for keeping a time of track for game actions.
